

The face of domestic violence can be...

any color, shape, status, gender or age.

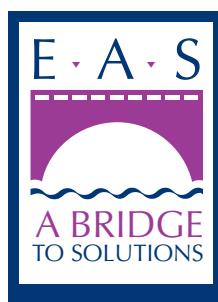

October is Washington's Domestic Violence Awareness Month.

Our citizens all have a right to be free from abusive behavior that is physical, sexual, or psychological, and is intended to establish and maintain power and control. Domestic violence is criminal. It instills fear and destroys relationships and lives. It is not just a family matter, but spreads into the workplace and other relationships.

If you are a victim of domestic violence, there is help available.

You can call the Employee Advisory Service - a free confidential service for assistance for state employees and their families.
